

BrightGrid Commercial Custom Rebate Guide

Lighting

Lighting retrofit incentive is \$0.08 per verified annual kWh saved, capped at 50% of installed cost. Fixtures must be DLC listed. Controls-only projects without fixture wattage reduction are excluded from this measure.

VFD

Variable-frequency drive incentive is \$120 per connected horsepower, capped at 50% of installed cost. Existing equipment must be constant-speed and operate more than 2,000 hours per year.

Above-Code Requirement

Code-required controls, schedules, and tenant-buildout sequences do not qualify for custom incentives.

Due Date

Customer signature and final M&V; worksheet are due by 2026-08-14.
